PUBLIC USE OF SCHOOL FACILITIES

While the district's school buildings and grounds are maintained primarily for the purpose of educating students within the district, the Board of Education recognizes that the buildings and grounds are a valuable community resource and believes that this resource should be available to the community for specific uses that will not interfere with educational activities. This policy is intended to identify the uses that community groups may make of those facilities.

Permitted Uses

District facilities may be used for the purposes listed below, subject to the conditions and restrictions set forth in this policy.

- A. Instruction in any branch of education, learning or the arts.

Additionally, as a condition of receiving state funding, the district permits access to military recruiters to school buildings, grounds and facilities to the same extent it provides access to those who inform students of educational, occupational or career opportunities.

Prohibited Uses

Any use not permitted by this policy is prohibited. In addition, the following uses are specifically prohibited.

- A. Meetings sponsored by political organizations.
- B. Meetings, entertainments and occasions, where admission fees are charged, that are under the exclusive control of and the proceeds are to be applied for the benefit of a society, association or organization of a religious sect or denomination or of a fraternal, secret or exclusive society or organization, other than veterans' organizations or volunteer fire fighters or volunteer ambulance workers.

Conditions of Use for District Facilities

- A. Use of district facilities may be permitted unless such facilities are in use for school purposes, or during educational programs. The district reserves exclusive and nonreviewable judgment to determine if a requested use would interfere with or disturb the district's educational programs.

- ED. Use of district facilities will be permitted only where the applicant agrees to pay the district a user fee according to a schedule adopted by the district to cover the costs of heat, electricity, maintenance, custodial services, security and any other expenses associated with the requested use. The district retains the right to condition use upon an applicant depositing with the district a sum equaling the estimated costs and fees associated with the proposed use 10 days in advance of the requested use. The district retains the further right to waive user fees for groups that are associated with or sponsored by the district.
- DE. Where, in the judgment of the district, the requested use of district facilities requires special equipment or supervision, the district reserves the right to deny such use, or in the alternative, to condition such use upon the applicant's payment of additional fees in accordance with paragraph ED above. Only authorized personnel shall operate district equipment.
- EF. Use of district facilities will only be permitted where the organization provides the district timely evidence of adequate insurance coverage (\$1,000,000 minimum) to save the district harmless from all liability, property damage, personal injuries and/or medical expenses. The district will exercise complete and unreviewable discretion regarding what constitutes adequate insurance coverage for each proposed use.

5300.60 STUDENT SEARCHES AND INTERROGATIONS

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe, supportive, and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the district code of conduct.

School officials questioning students shall advise each student why he/she is being questioned. However, parent(s) and students should be aware that school officials are under no obligation to contact a student's parent(s) prior to questioning the student nor are the students entitled to be advised of their legal rights, i.e. "Miranda"-type warning, before being questioned by school officials as such rights only apply to situations where an individual is being questioned while in the custody of police.

In addition, the Board authorizes the Superintendent of Schools, Building Principals, the school nurse and district security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the district code of conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than the district employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the district code of conduct, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

A. Student Lockers, Desks and other School Storage Places

The rules in this code of conduct regarding searches of students and their belongings do not apply to student lockers, desks and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places may be subject

to search at any time by school officials, without prior notice to students and without their consent.

B. Strip searches

A strip search is a search that requires a student to remove any or all of his or her clothing. For purposes of this provision, "clothing" does not include an outer coat or jacket. Searching a student's shoes, socks and sweatshirt, and the exposure of a student's ankles and waistband does not constitute a strip search where the student is not asked to remove his or her shirt or pants.

Strip searches are intrusive in nature and are not permissible. If school authorities believe there is a reasonable suspicion of danger to others or a specific, well-founded reasonable suspicion that a student has hidden illegal, prohibited, or dangerous articles or materials beneath his or her underwear, to the extent practicable, such student shall be isolated and secured and law enforcement and the student's parents should be contacted **immediately**.

C. Documentation of Searches

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

1. Name, age and grade of student searched.
2. Reasons for the search.
3. Name of any informant(s).
4. Purpose of search (that is, what item(s) were being sought).
5. Type and scope of search.
6. Person conducting search and his or her title and position.
7. Witnesses, if any, to the search.
8. Time and location of search.
9. Results of search (that is, what items(s) were found).
10. Disposition of items found.
11. Time, manner and results of parental notification.

The Principal or the Principal's designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The Principal or his or her designee shall clearly label each item taken from the student and retain control of the item(s), until the item is turned over to the police. The Principal or his or her designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

D. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a

school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function; or
3. ~~Been invited by school officials.~~

Before police officials are permitted to question or search any student, the Principal or his or her designee shall first try to notify the student's parent(s) to give the parent the opportunity to be present during the police questioning or search. ~~In the absence of a search or arrest warrant, or in the event police officials do not have probable cause to believe that a crime has been committed on school property or at a school function, a student may not be questioned or searched without the consent of the student's parent(s). If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted, unless the student is 16 years of age or older.~~ The Principal or designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.

E. Child Protective Services Investigations

Consistent with the district's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will provide data and assistance to cooperate with local child protective services workers, or members of a multi-disciplinary team accompanying such workers, who ~~wish to conduct interviews of students on school property relating~~ are responding to allegations of suspected child abuse, and/or neglect, or custody investigations. Such data and assistance include access to records relevant to the investigation, as well as interviews with any child named as a victim in a report, or a sibling of that child, or a child residing in the same home as the victim.

All requests by child protective services to interview a student on school property shall be made directly to Principal or his or her designee. Child protective service workers and any associated multi-disciplinary team members must comply with the district's procedures for visitors, provide identification, and identify the child(ren) to be interviewed.

~~The Principal or designee shall set the time and place of the interview.~~ The Principal or designee shall decide if it is necessary and appropriate for a school ~~official~~ staff member, including but not limited to an administrator or school nurse, to ~~be present during~~ observe the interview either from inside or outside the interview room, depending on the age of the student being interviewed and the nature of the allegations. ~~If the nature of the allegations is such that it~~

~~may be necessary for the student to remove any of his or her clothing in order for the child protective services worker to verify the allegations, the school nurse or other district medical personnel must be present during that portion of the interview. No student may be required to remove his or her clothing in front of a child protective services worker or school district official of the opposite sex.~~

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

ADMISSION OF NON-RESIDENT STUDENTS

The Board of Education affirms that its primary responsibility is to provide the best possible educational opportunities for the children who are legal district residents and who are of legal age to attend school.

However, a non-resident student may be admitted to district schools upon payment to the district of the Board-adopted tuition charge, if and only if, in the judgment of the Superintendent of Schools:

1. there is sufficient space to accommodate the non-resident student;
2. no increase in the size of faculty or staff will be necessary to accommodate them;
3. the non-resident student meets the district's criteria for admission; and
4. the admission of such non-resident student is and continues during the enrollment period to be in the best interests of the district;-
- 4.5. The student is deemed "in good standing" by his/her current district.

This policy is not applicable to homeless students entitled to attend district schools under federal and state law and regulations, who may not be currently residing in the district (see policy 5151 Homeless Children). Homeless students who are not entitled to attend district schools under federal and state laws may be considered for non-resident enrollment under this policy. This policy is also not intended to cover students who are placed in district programs by agreement with, and paid for by, another school district.

Transportation

Transportation to and from school for any nonresident student admitted in accord with this policy shall be the sole responsibility of the parent(s)/guardian(s).

High School Students

A child may attend Elwood/John H. Glenn High School for the 12th grade tuition free, provided that the student and his/her family were legal residents of the District for three years or greater at the conclusion of the child's 11th year. If the family moves out of the District prior to June 15 of the 11th grade and the parent(s) wish the child to continue attending, such attendance must be on a tuition-paying basis. Approval of the Superintendent of Schools is required for continuation of attendance in accord with the provisions of this paragraph. The student must be in good standing as determined by the school principal to be considered.
